## Millionaire MILLcoin /Project for the establishment of electronic commerce around the world

MILLcoin is a coded currency that begins by providing electronic services,

With more than a million people around the world working through e-commerce we will communicate with offering the best solutions

And ideas that will help build trust between the trader and consumers

MILLcoin has two short goals:

1) Access to service providers with assistance and solutions to increase sales and overall growth of business activity

This depends on the MILLcoin system in its acceptance in buying and selling with different traders and buyers

Our goal is to reach people who do not know about cryptocurrency and increase work activity

So we offer MILLcoin, best solutions for electronic service providers

2) Continuous development.

The Najaj project is a development and therefore we are going to start out and we will do our utmost to develop from our work

world Trade There is no average man

We have developed a modern market where you can securely and reliably buy and sell any items you desire. Create complete stores directly through the market where you can sell your products
